

TerraStat® TS510 Dissipation Terminal (Horizontal)

The TerraStat® TS510 is the horizontal version of the TerraStat® TS500 and is designed to be mounted horizontally across the tops of large face section towers, on platforms and antenna arms. The TS510 can also be used to protect water tanks, storage tanks, commercial cranes and other structures that have large areas of horizontal exposed steel.

Part Number	Description	Weight
TS510-SS-3/8	TerraStat® 510, Stainless Steel, 3/8" Dia., Mounting Holes, Horizontal Tower Dissipator	9.0 lbs (4.1 kg)
